[LOW] Disguised Ads

Recommended with your policy Donate ¹99 to the ABC Suraksha Foundation for uninsured families.

[MEDIUM] Confirm Shaming

Recommended with your policy: Donate ¹99 to the ABC Suraksha Foundation for uninsured families. The donation checkbox sits beside the premium summary and uses suggestive language that may pressure customers. This long evidence string must wrap fully inside the finding card without clipping at the bottom of the PDF page. Additional detail: the UI presents the charity ask as if it were part of the insurance purchase flow.

Recommended Fixes

1. Review the Donate prompt and present it as a clearly voluntary contribution, separate from insurance purchase.
2. Move charity options off the payment critical path so customers can complete checkout without social-pressure framing.
3. Add an explicit non-selected default and equal visual weight for Skip / No thanks.
